## **LAW OF ABUNDANCE**

**AUGUST 17, 2012 11:54 AM EDT 25 DEGREES LEO 08 MINUTES**

### **THE SIGN LEO:**

*This is the sign of integrity, recognition, romance, affection, creativity, and play. When this sign is emphasized, we show kindness and generosity to others. We fall in love and put our heart into whatever we are doing. Time for ambition, independence, and leadership. People may refuse to recognize their limitations under this influence. This sign can be known for its overly dramatic behavior. It rules the heart and the upper spine.*

*This is the most dramatic of all the twelve signs. The ego development of Leo is powerful. It can be used to overpower others in an attempt to prove your importance; or, it can be directed toward achieving a purposeful goal.*

*Where Leo is in your chart is where you have the power to create, to make things happen by using your will. Leo is a fixed, determined, fire, goal-oriented sign; all the ingredients needed for success.*

### **THE SABIAN SYMBOL: A RAINBOW.**

*This is a symbol of the over-all realization which comes to man for his guidance whenever he strives to reach his goals of a more enduring sort. Here is assurance of divine participation in the most unpromising of human relationships. The individual learns that there is a consistent ordering throughout the world in which he finds himself, and that nature will co-operate effectively with every vision he chooses to keep alive on his own account. The keyword is SIGNIFICANCE. When positive, the degree is a sense of very real spiritual power and presence in all personal effort and desire, and when negative, and uncritical acceptance of every passing hope or dream as something on which to depend. ### **THE DECANATE: ARIES**

*The sign of the pioneer and new beginnings. Springtime. Fire signs are goal oriented, and concerned with future opportunities. Often described as inspirational, fire signs, more than all others, show where you need goals. Aries never forgets the fact that they were born to lead the way. Born directors and organizers. This sign represents the need to become a more well defined individual. The house Aries is on in your chart shows where instinctual activity, freely operating, gives you the opportunity to become more conscious to add to your development as a separate entity. This sign rules the head.*

### **THE DWAD: GEMINI**

*With this sign, curiosity is developed, which opens the door to learning, versatility, and choice. The experiences ruled by the Gemini house in your chart require the greatest flexibility. This sign thrives on change, because variety offers food for thought, which develops objective thinking patterns. Curiosity is aroused, which motivates you to seek out new experiences having educational value. The power to communicate ideas and deal with a variety of things. Nothing escapes the attention of Gemini. The gathering of information that facilitates our day to day activities. Versatility and adaptability are needed now. Learn and make new connections.*

### **RULERS: SUN/MARS /MERCURY**

*This New Moon is in Leo, and the Sun rules Leo, and it is in Leo. The heart is warm, and the creative juices are flowing. Saturn is in Libra laying the framework for cooperation. The sense of self and the need to cooperate are on equal footing. If you can't do both you may find yourself alone being yourself. Mars has joined with Saturn in Libra to start a two year cycle. Peaceful interactions with others are promoted now. Saturn and Mars are sextile (favorable) to the New Moon. Mercury is in Leo very favorable to Uranus in Aries. This brings positive good ideas to the table and a new sense of self. If you make the effort to express yourself you will be successful*
