

THE NEW MOON LAW OF ABUNDANCE

23 DEGREES VIRGO 37 MINUTES

HOW: THE SIGN VIRGO:

A mutable earth sign that reaches for the highest perfection. Taking care of endless details and routine jobs. The sign of humble service and patience. Your state of mind in this area of your life has a direct bearing on your health. Certainly, this area of your life is a work in progress. The never-ending maintenance of life, spotting flaws, and correcting mistakes. Everything can be fixed. Don't worry. The house Virgo is on in your chart you need to analyze, perfect, and digest all that has been absorbed through previous experiences in an attempt to find a useful application for acquired skills. The goal is not to become trapped in the detail, but to develop an appreciation for it. The experiences offered here require analysis, assessment, digestion, and the elimination of those things that have proven unfit for future use. The experiences attracted in the Virgo house will make you aware of what needs your attention.

THE SABIAN SYMBOL: MARY AND HER WHITE LAMB

This is a symbol of the self-adequacy of experience on the inner or subjective side, or of that fullness of life which comes through a cherishing of young ideas. The healthy approach to heaven through a child's wide-eyed expectation is a clue to the adult's responsibility for his potentials. These he must take with him in a very conscious fashion wherever he goes if he is not to find himself divided within himself and so defeated by his own confusion. The keyword is ARTLESSNESS. When positive, the degree is a highly ingenuous creativity by which an individual is able to make all contact with others a worth-while relationship of self, and when negative, happy-go-lucky vacuity of spirit and understanding. THE DECANATE: TAURUS

The key phrase for Taurus is, "What do I have?" Taurus is concerned with getting results. Money, personal resources, security, survival skills, and self-esteem. To have the things around us that make us comfortable and reflect who we are. This sign builds. Where this sign is in your chart will indicate your sense of values, as well as where you are apt to be locked up in material values. Taurus rules the throat in the physical body.

THE DWAD: GEMINI

With this sign, curiosity is developed, which opens the door to learning, versatility, and choice. The experiences ruled by the Gemini house in your chart require the greatest flexibility. This sign thrives on change, because variety offers food for thought, which develops objective thinking patterns. Curiosity is aroused, which motivates you to seek out new experiences having educational value. The power to communicate ideas and deal with a variety of things. Nothing escapes the attention of Gemini. The gathering of information that facilitates our day to day activities. Versatility and adaptability are needed now. Learn and make new connections.

RULERS: MERCURY\VENUS\MERCURY

This New Moon is all about getting organized into a routine that you can count on. It is time to put into practice every skill that you have. You will be surprised what you can do. Mercury is the ruler of Gemini and Virgo. Gemini is the sign that has to do with community. It has to do with what goes on around you every day and your ability to connect successfully. Mercury is in Virgo now and Virgo is our ability to filter out what is not important so we don't get lost in issues that are not pertinent. Venus is in Leo bringing up our highest and grandest ideals. It is time to put the best out there. Leo is warm, generous, and creative. It is time to bring that warmth to what you are doing. That goes a long way in getting others to cooperate. Saturn has been in Libra for a couple of years. It is at the end of its journey in the sign of relationships and refinement. We have learned our lessons and now we have to demonstrate those qualities. Saturn will move into Scorpio on October 4th.
