

# ***THE FULL MOON, TIME TO RELEASE***

**APRIL 06, 2012 03:19 PM EDT**

**17 LIBRA 23 MINUTES**

## **HOW:**

### **THE SIGN LIBRA:**

*The power to relate to others is this sign's greatest concern. Beauty, balance, harmony, equality, and justice are important where this is in your chart. This is the union or marriage sign of the zodiac; and, the soul can no longer function in the 'me' consciousness. It has to become the 'we' consciousness. This New Moon will let us know where we need to bring things into balance. What about relationships? Are we being fair? Is this area one-sided? All lessons of Libra involve the realization and integration of opposites, particularly those contrasts found within personal relationships. The primary purpose of this sign is one of sharing—sharing ideas, sharing experiences, sharing your life—with others. The house that Libra is on in your chart is where you need to develop a healthy balance between personal goals and respect for the goals of others. Libra shows where you need relationships, which offer feedback, which, in turn, help you develop into a more objective, "other-oriented" individual.*

### **THE SABIAN SYMBOL: TWO MEN PLACED UNDER ARREST.**

*This is a symbol of the maximum demand that may be made of any individual for self-consistency, and of the absoluteness of compulsions on human nature to provide a balance between inner and outer capacities. Implicit in the reversed symbolism is the importance of the self's responsibility to its own essential characteristics, not as a limitation arising from the role it plays in life but as the necessity that the potentials of value in any given situation be brought to some point of immediate and effective function. The keyword is CONSEQUENCE. When positive, the degree is a heightened challenge to every special talent, and when negative, total inappropriateness of impulse and act. ### **THE DECANATE: AQUARIUS**

*This is a fixed air sign. This is the sign of the rebel, or the individualist. They approach life through their intellect. Old molds, old concepts, those things which have outgrown their usefulness in every area of life are being shattered. New ideas, brilliance, new inventions show us a new way now. Aquarius is the sign of spiritual rebirth. Public affairs become more important at this time, as there is an interest in the welfare of others in a social sense.*

### **THE DWAD: ARIES**

*The sign of the pioneer and new beginnings. Springtime. Fire signs are goal oriented, and concerned with future opportunities. Often described as inspirational, fire signs, more than all others, show where you need goals. Aries never forgets the fact that they were born to lead the way. Born directors and organizers. This sign represents the need to become a more well defined individual. The house Aries is on in your chart shows where instinctual activity, freely operating, gives you the opportunity to become more conscious to add to your development as a separate entity. This sign rules the head.*

### **RULERS: VENUS\SATURN\URANUS\MARS:**

*At the time of this Full Moon, Venus is in the sign Gemini. There is a great focus into the sign Gemini this year. The Solar and Lunar Eclipse are in Gemini. Venus will go retrograde in Gemini on May 15<sup>th</sup>, she will Eclipse the Sun on June 5<sup>th</sup>, and Venus will go direct on June 27<sup>th</sup>. All of this is emphasizing better communication. Saturn has been in Libra since July 22, 2010 and will remain there until October 04, 2012. Saturn is measuring how well we relate to one another. Libra is the sign of the Zodiac that focuses on relationships, cooperation, fairness, and balance. Saturn is grading us on that now. If we want to move forward and accomplish something we need to communicate and connect with others in a healthy cooperative way. Mars has been retrograde in Virgo since January 23<sup>rd</sup>. Mars is bringing out in each and every one of us our dysfunctions and the need to fix them. It is time to work on the areas in which we are awkward. The three air signs, Gemini, Libra, and Aquarius are being emphasized at this Full Moon. Air signs are social, intellectual, and interact with others. This Full Moon will bring up where we stand in our relationships. Mars retrograde in Virgo will cut out the problem and fix things so we can move forward in our relationships with others in a better way. There doesn't seem to be any wiggle room so if you have a problem you better get right on it.*
