**00 DEGREES GEMINI 20 MINUTES**

### **HOW: THE SIGN GEMINI**

*With this sign, curiosity is developed, which opens the door to learning, versatility, and choice. The experiences ruled by the Gemini house in your chart require the greatest flexibility. This sign thrives on change, because variety offers food for thought, which develops objective thinking patterns. Curiosity is aroused, which motivates you to seek out new experiences having educational value. The power to communicate ideas and deal with a variety of things. Nothing escapes the attention of Gemini. The gathering of information that facilitates our day to day activities. Versatility and adaptability are needed now. Learn, and make new connections.*

### **THE SABIAN SYMBOL: A GLASS-BOTTOMED BOAT IN STILL WATER.**

*This is a symbol of man's alertness to every ramification of experience open to him, and to of the necessity that he take definite action on his own account if he is to capitalize on any particular opportunity. The emphasis is on an objective inactivity of value to the individual as it becomes a poise through which he is able to regasp his destiny at each point of advantage, and as it gives him a readiness of touch with the transient stream of every day affairs. The keyword is CURIOSITY. When positive, the degree is high competence in the estimation of life's potentialities, and when negative, a lack of effective participation in reality because of continual indecisiveness. ### **THE DECANATE: GEMINI**

### **THE DWAD: GEMINI**

### **RULERS: MERCURY/MERCURY/MERCURY**

*Gemini is the sign of the Zodiac that rules everything in our life that is taken for granted. The siblings that we were born to begin our life with. The attitude we develop from early on in our life. The neighborhood and our neighbors; so, the people you see everyday along the way. All tools of communication and transportation which help you get from one place to another in your day to day life. Gemini is everything that is right under your nose. This New Moon/Solar Eclipse is focusing on those things. Do you need to learn something new?*

*The Planet Mercury is the ruler of Gemini; and therefore, is the ruler of this lunation. Mercury is at 22 degrees Taurus. This is the degree of the 20 year Saturn/Jupiter cycle that started May of 2000. What have you learned over the last 12 years? Taurus is the sign of practical tangible things. We need to communicate what is important to us. "Put your money where your mouth is", "The proof is in the pudding" or "There is no free lunch" may be the mantra for this period. The effects of a Solar Eclipse last for a couple of years. Venus is retrograde in Gemini deepening the need for us to give more value to what comes out of our mouths. Maybe we do need to learn something new... Communication, knowledge, and language skills improve our value. The Planet Saturn is now retrograde at 23 degrees of Libra. We are in the information age, and the ones who know will be the ones who succeed. A good vocabulary and good communication skills are the orders now. Especially with Saturn in Libra, encouraging us to get along with others; so, good communication always helps. You need to be smart, communicate well, and play well with others.*
