

# ***THE NEW MOON LAW OF ABUNDANCE***

**OCTOBER 15, 2012 8:02 AM EDT**

**22 DEGREES LIBRA 32 MINUTES**

**HOW:** **THE SIGN LIBRA:** *The power to relate to others is this sign's greatest concern. Beauty, balance, harmony, equality, and justice are important where this is in your chart. This is the union or marriage sign of the zodiac, and the soul can no longer function in the 'me' consciousness. This New Moon will let us know where we need to bring things into balance. What about relationships? Are we being fair? Is this area one-sided? All lessons of Libra involve the realization and integration of opposites, particularly those contrasts found within personal relationships. The primary purpose of this sign is one of sharing—sharing ideas, sharing experiences, sharing your life—with others. The house that Libra is on in your chart is where you need to develop a healthy balance between personal goals and respect for the goals of others. Libra shows where you need relationships, which offer feedback.*

**THE SABIAN SYMBOL: CHANTICLEER**

*This is a symbol of the soul's ultimate self-realization through a basic integrity of its own insights or judgments, and of the unchallenged acceptance it is able to gain for its particular role in human affairs. Implicit in the symbolism are the practical rewards which come from the more effectively dramatized distinctions of everyday living, and the enduring significance which the self achieves for itself through the place in life it succeeds in making its own. The Keyword is FERVOR. When positive, the degree is a fearless self-affirmation which gains a sympathetic attention and wins immediate allegiance from the hearts and minds of everybody, and when negative, ill-starred conceit and ineffective bombast. **THE DECANATE:**

**GEMINI**

*With this sign, curiosity is developed, which opens the door to learning, versatility, and choice. The experiences ruled by the Gemini house in your chart require the greatest flexibility. This sign thrives on change, because variety offers food for thought, which develops objective thinking patterns. Curiosity is aroused, which motivates you to seek out new experiences having educational value. The power to communicate ideas and deal with a variety of things. Nothing escapes the attention of Gemini. The gathering of information that facilitates our day to day activities. Versatility and adaptability are needed now. Learn and make new connections.*

**THE DWAD:**

**CANCER**

*The subconscious, the emotions, and instinctual behavior. Intense emotion and great sensitivity. This sign connects us with the past, our roots, family, and the way we were raised. This is the most fertile sign of the zodiac. Time to nurture, protect, and care for the things that we want to bring forth now. It rules the breast and the stomach. The house ruled by Cancer shows where, moved by emotion, you seek out experiences, which secures your Aries identity and builds foundations in your personal life. You protect this area of your life like a mother protecting her young. You function in this area with "gut feeling".*

**RULERS:**

**VENUS\MERCURY\MOON** *This New Moon is ruled by Venus, and she is in Virgo. This sign gets us into a routine. This New Moon in Libra is finally done with Saturn in its sign. This gives you a good look at how much your life has improved over the last couple of years in that area. You must have learned something. Your relationships have improved or they have changed. Saturn is at 1 degree of Scorpio. We have a new journey. It is all about investment of ourselves in to something we want to grow. Make sure that you connect with the right situations. Saturn holds us accountable for what we do. Mercury is in Scorpio aiding in the decisions we are making now for long term commitment.*
