

THE FULL MOON, TIME TO RELEASE

JANUARY 09, 2012 2:30 AM EST 18 DEGREES CANCER 26 MINUTES

HOW:

THE SIGN CANCER:

The subconscious, the emotions, and instinctual behavior. Intense emotion and great sensitivity. This sign connects us with the past, our roots, family, and the way we were raised. This is the most fertile sign of the zodiac. Time to nurture, protect, and care for the things that we want to bring forth now. It rules the breast and the stomach. The house ruled by Cancer shows where, moved by emotion, you seek out experiences, which secure your Aries identity and build foundations in your personal life. You protect this area of your life like a mother protecting her young. You function in this area with "gut feeling".

THE SABIAN SYMBOL: A PRIEST PERFORMING A MARRIAGE CEREMONY.

This is a symbol of the spiritual stewardship of man as expressed in his conscious concern for the integrity of human society and for the everyday institutions through which all racial ideals must have their continued embodiment. There are very full rewards awaiting the individual who is willing to live the life of his fellows through his consistent shaping of his own acts and opinions to dramatize the current aspirations of his kind. His service to the established rituals becomes a special self-fulfillment. The keyword is CONFORMITY. When positive, the degree is a genius for bringing various facets of life into organic unity, and when negative, bondage to outer form.

THE DECANATE: SCORPIO

Scorpio is one of the most powerful signs in the Zodiac, because of its strong will and determination to accomplish whatever it attempts to do. Its analytical mind, strong intuition, reasoning power, perception, long range planning ability, magnetism, and energy are assurances of success. Where you have this sign in your chart is where you want to merge with others. This sign has the power to control, and has a need to delve deeply. It cannot be fooled. Eruption of repressed emotions causes healing and cleansing. Scorpio rules credit cards and borrowed money. Release and letting go is one of the major lessons of Scorpio. Resentments that hang on, a fear of letting go of the past, and the excessive drive to control, can easily lead to blockages in the body's elimination process.

THE DWAD: AQUARIUS

This is a fixed air sign. This is the sign of the rebel or the individualist. They approach life through their intellect. Old molds, old concepts, those things which have outgrown their usefulness, in every area of life, are being shattered. New ideas, brilliance, and new inventions show us a new way now. Aquarius is the sign of spiritual rebirth. Public affairs become more important, as there is an interest in the welfare of others in a social sense. People will tend to be very friendly, but impersonal. The house where Aquarius is in your chart is where you are encouraged not to conform. You are no longer limited by conventional boundaries; therefore, you are free to be different, to be inventive, and to be yourself. This is where you can be truly creative, truly unique, or contribute your utmost to humanitarian progress. You must dare to break away from established customs, to go one step further, and investigate the potentials of tomorrow.

RULERS: MOON/MARS /PLUTO/SATURN/URANUS

A Full Moon in Cancer brings home, family, and security to our attention. Mars is in Virgo bringing hyper vigilance to what needs attention. Mercury is keeping company with Pluto in Capricorn. This also brings complete and total focus to what we are doing. Saturn has been Libra for about two years; and, we should know what needs balance. Saturn in Libra is in favorable relation to Neptune in Aquarius. One to one relationships, as well as, our group relationships are enhanced by this energy. It is time to be comfortable being what you were always meant to be.
