02 PISCES 42 MINUTES

HOW:

THE SIGN PISCES:

Here is where total commitment must be made to proceed with what, until now, has been only a vision, but what could eventually become a reality. In Pisces, you are encouraged to walk into the unknown, even though there is no proof that what you seek could, or ever will, exist. The experiences met in the house of Pisces are often considered to be “karmic”, in the sense that you are confronted with your past. The power of positive thinking, psychic abilities, unselfish love, and a willingness to help when help is needed, even if personal sacrifices must sometimes be made. Idealistic, spiritual, sensitive, giving, compassionate are all attributes of the sign. Escapism, wishy-washy, fearful, and unrealistic tendencies should be avoided. Faith should not be confused with escapism.

THE SABIAN SYMBOL: A PETRIFIED FOREST.

This is a symbol of the absolute certainty which any individual may develop in the terms of his conscious knowledge, and of the power in human character which becomes the hallmark of his intellectual orientation. The static symbolism is a warning against any reliance on stabilities to which no immediate or personal contribution is made, and which in consequence may become obstacles to progress. Here rather is dramatization of an eternal stout heartedness, and of its very practical dividends in spiritual continuance. The keyword is SURVIVAL. When positive, the degree is effective continuity and breadth of resource in all human effort, and breadth of resource in all human effort, and when negative, complete immobilization in superficial reality. PISCES

THE DWAD:

ARIES

The sign of the pioneer and new beginnings. Springtime. Fire signs are goal oriented, and concerned with future opportunities. Often described as inspirational, fire signs, more than all others, show where you need goals. Aries never forgets the fact that they were born to lead the way. Born directors and organizers. This sign represents the need to become a more well defined individual. The house Aries is on in your chart shows where instinctual activity, freely operating, gives you the opportunity to become more conscious to add to your development as a separate entity. This sign rules the head.

RULERS:

JUPITER/NEPTUNE/MARS:

This New Moon in Pisces is celebrating the Planet Neptune home for the first time in 165 years. Neptune will be in Pisces for 14 years. The Sun, Moon, Neptune, Chiron, and Mercury are all in Pisces. It is time to get in touch with the compassionate and sensitive part of you. Pisces is the sign that serves unconditionally. You will discover an ability to visualize what you may never have been able to do before. Music, art, dancing, and singing may become an interest. It is time to learn to move gracefully with the energy. Mars is the Planet of action and it is retrograde in Virgo. It is letting go anger through service. It is time for a healthy routine. New work may present itself that will satisfy your soul. Jupiter is in Taurus bringing out the need to use your talent and resources in constructive ways. You will build something that will last. It is time manifest your dreams. Saturn is retrograde in the last degree of Libra. There is some ultimatum in relationships. Cooperation is required. Venus is in Aries asserting herself.
